

# Refayth Hossain | WEB DEVELOPER

01533438509 | [Mail](#) | [GitHub](#) | [Linkedin](#) | [Portfolio](#)

Detail-oriented Web Developer skilled in React.js, Next.js, TypeScript, and TailwindCSS with experience building responsive, user-friendly applications. Proficient in Linux environments and collaborating with cross-functional teams. Currently expanding my backend skill set with Python and Django, combining strong problem-solving ability with a passion for scalable, maintainable code. Experienced with dynamic programming and algorithm design.

## PROJECTS

**QuickSend** | [Github](#)

**A web-based email delivery tool with logging and template support**

- Developed a platform to send emails to users, track delivery status, and log all email activity
